Prime Minister Fellowship

At a glance

1. Introduction

Civil Service plays a key role in the formulation and implementation of public policies and is entrusted with, providing services to the citizens. Thus, it is contributing to the overall development of the country. Against this backdrop, a country always requires a competent Civil Service. In case of Bangladesh, the need for a knowledge-based and capable Civil Service is more important now than any time before, as we are approaching towards some significant milestones in 2026, 2030 and 2041. In this perspective, the government has emphasized on human resources development in all long-term planning documents. In line with that, the Prime Minister Fellowship (PMF) was introduced in 2018 by the Honourable Prime Minister in order to facilitate the capacity development of human resources across all sectors. Thereby, Governance Innovation Unit (GIU) is entrusted with the responsibility of the management of PMF.

2. Management of Prime Minister Fellowship

The Prime Minister Fellowship was introduced by the Honourable Prime Minister Sheikh Hasina in 2018 to develop knowledge-based and competent human resources. The program aims to create opportunities for higher studies (Master's degree and Ph.D.) abroad in different fields in order to develop skilled and efficient human resources. GIU at Prime Minister's Office was entrusted to manage the fellowship activities. The fellowship is awarded for pursuing Master degree and Ph.D. degree from foreign reputed universities.

The Fellowship is administered by two committees: the Fellowship Steering Committee and the Fellowship Selection Committee. The steering committee is headed by the Principal Secretary to the Prime Minister. Other members of the Steering Committee include representatives from the Ministry of Public Administration (MoPA), Finance Division (FD), Prime Minister's Office (PMO), and the representative from the University of Dhaka. The fellowship selection committee consists of the members of MoPA, FD, and a member from academia where the Director General, GIU is the head of the committee. It is important to mention that in addition to the selection committee, a subject matter expert also conducts the exam in PhD selection process. So far, 239 Masters fellows and 98 Ph.D. fellows have been awarded the scholarship to study at world-class universities.

3. Infographics

According to the Prime Minister Fellowship Policy, 2022, Fellowship is awarded in the following three categories:

- ◆ Government Officers (BCS)
- ◆ Government Officers (Non-BCS)
- ◆ Others (Private candidates)

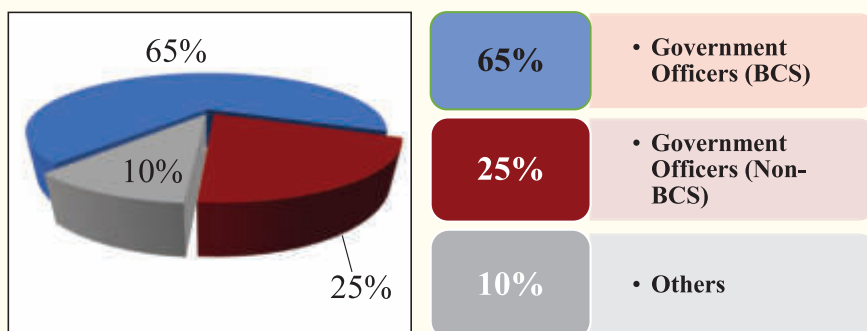

Figure-1: Distribution of fellowships according to categories

The Prime Minister Fellowship has been awarded since FY2018-19. Table 1 shows the number of fellows in different courses and categories from FY2018-19 to FY2022-23.

FY	Course		Total
	Ph.D.	Master's	
2018-19	38	64	102
2019-20	38	87	127
2020-21*	0	0	0
2021-22	16	56	72
2022-23	6	30	36
Total	98	239	337

Table-1: Number of fellows by fiscal year

* Due to COVID-19 Pandemic, no fellows were selected in FY2020-21

Prime Minister Fellows study in many reputed universities in different countries including US, UK, Australia, and Canada. Under the fellowship program, a PhD fellowship is awarded only to the top 100 universities according to the Times Higher Education World University Ranking while for master's it is top 200. Consequently, Bangladeshi students are studying at global top-class universities such as Harvard University, Yale, Johns Hopkins University, and the University of California, US; the University of Oxford and the University of Cambridge, UK; and the Australian National University (ANU), Australia.

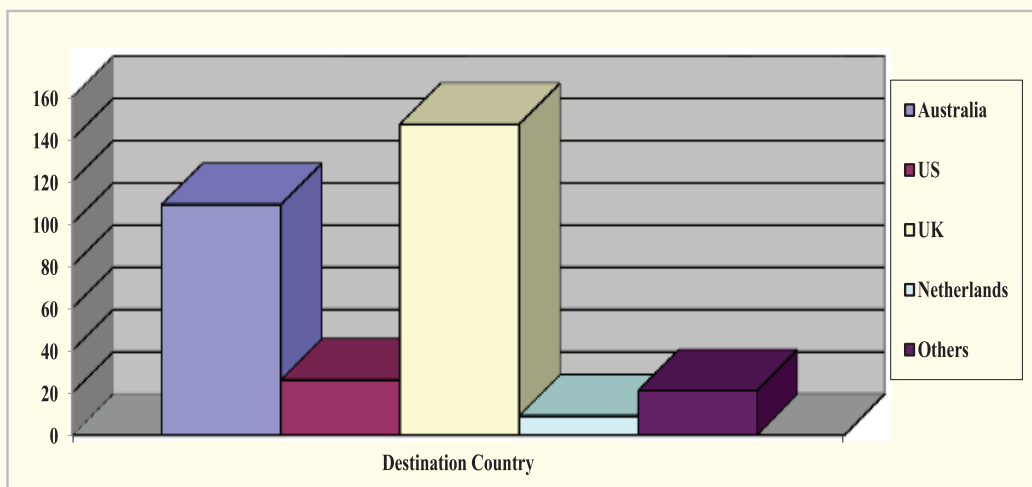

Figure-2: Number of fellows according to destination countries

4. Conclusion

A well-trained civil service is imperative to deliver high-quality services and to implement the development visions of the government. In this regard, the government emphasizes on higher education and training. With a view to establishing an effective workforce, the government is investing in higher education. In line with this, the fellowship is playing a significant role in human resource development.

GIU has started the evaluation of the fellowship and completed the first phase (reaction) of it. The transient evaluation shows that the fellows not only gained knowledge in their area of study but also improved their skills in communication, presentation, analytical ability, problem identification, and problem-solving. It is noteworthy to mention that if the officials are assigned in line with their acquired competence, implementing government development goals may be achieved more efficiently and effectively. In addition to enriched educational experiences, Prime Minister Fellowship will contribute significantly to the multicultural outlook of the fellows as global citizens.

Information of Fellows Master Degree

Name	: Mohammad Ariful Kabir
BCS Cadre & Batch	: BCS (General Education), 27 th Batch
Present working institution & designation	: Assistant Professor, Sadarpur Government College, Faridpur
Fellowship session/year	: 2018-19 (1 st phase)
Name of the course under PM fellowship	: Master Degree
Name of the University	: Nottingham University, United Kingdom
Name of the degree	: PhD in Master of Arts in Education
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<p>Since my area of study is directly related to quality teaching and leadership development in Education, I have been implementing my acquired hands-on UK knowledge and experience with self-motivation and dedication in many respects in my service delivery to the students and the organization. The following are worth mentioning</p> <ol style="list-style-type: none"> 1. Implementation of Curriculum and application of pedagogy

Name	: Md Lutfor Rahman
BCS Cadre & Batch	: BCS (General Education), 29 th BCS
Present working institution & designation	: Assistant Professor (English), Directorate of Secondary and Higher Education
Fellowship session/year	: 2018-19 (1 st phase)
Name of the course under PM fellowship	: Master Degree
Name of the University	: Newcastle University, UK
Name of the degree	: MA in Applied Linguistics and TESOL
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ Theories and approaches in English language learning and teaching practices ◆ Reflective Practice and Self-development as an English language teacher ◆ Multimodality in cognitive and social processes of English language learning ◆ Contextual and Pragmatic use of English as a second language in and outside the classroom ◆ Students' need analysis and determining effective teaching methodology

Name	: Md Kamrul Islam Buyan
BCS Cadre & Batch	: BCS (Information General), 31 st Batch
Present working institution & designation	: Press Information Department, Ministry of Information & Broadcasting
Fellowship session/year	: 2018-19 (1 st phase)

Name of the degree	: MSc in Risk, Disaster and Resilience
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none">1. Prepare better Disaster Emergency Plan to respond more effectively and efficiently during disasters2. Prepare Business Continuity Plan to ensure that organization can deliver service even during an extreme unprecedented event3. Introduce Disaster Insurance at the disaster affected area of Bangladesh

Name	: Saadman Faisal
Present working institution & designation	: Senior Program Associate, BRAC Institute of Governance and Development
Fellowship session/year	: 2022-23
Name of the course under PM fellowship	: Master Degree
Name of the University	: Columbia University, New York, USA
Name of the degree	: Master in Development Practice

Name	: Sanjana Siddique
Present working institution & designation	: Augmedix, Medical Data Analyst
Fellowship session/year	: 2022-2023
Name of the course under PM fellowship	: Master Degree
Name of the University	: Johns Hopkins University, Maryland, USA
Name of the degree	: Master in Health Science in Epidemiology
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: 1. The advanced epidemiologic and biostatistical methods learnt in this program will help me to analyze public health concerns more effectively, identify patterns, evaluate data, and draw meaningful conclusions contributing to evidence based decision making at the workplace.

Information of Fellows PhD

Name	: Md Tofail Miah
BCS Cadre & Batch	: BCS Roads and Highways (Civil), 25 th Batch
Present working institution & designation	: Executive Director, Department of Roads and Highways, Tejgaon, Dhaka.
Fellowship session/year	: 2018-19 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: Griffith University, Australia.
Name of the degree	: PhD in Civil Engineering.
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: Pavement Management, Modelling of pavement deterioration, Optimum Maintenance, Assessment of Pavement Condition Index (PCI), Impact of Swelling Soil on Pavement.

Name	: Shahed Mustafa
BCS Cadre & Batch	: BCS (Administration), 25 th Batch
Present working institution & designation	: OSD, Ministry of Public Administration
Fellowship session/year	: 2018-19 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Edinburgh, UK
Name of the degree	: PhD in Atmosphere and Environmental Science
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: Pavement Management, Modelling of pavement deterioration, Optimum Maintenance, Assessment of Pavement Condition Index (PCI), Impact of Swelling Soil on Pavement.

Name	: Mohammad Kamrul Hasan
BCS Cadre & Batch	: BCS (Administration), 24 th Batch
Present working institution & designation	: Director (Deputy Secretary), Governance Innovation Unit, Prime Minister's Office
Fellowship session/year	: 2018-19 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Manchester, UK
Name of the degree	: PhD in Development Policy and Management
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ I am now in a better position to think analytically and critically. This capacity helps me to bring forward effective reform proposals; ◆ Research oriented activities can be done in a more systemic manner

Name	: Md Isahaque Ali
BCS Cadre & Batch	: BCS General Education, 24 th Batch
Present working institution & designation	: Assistant Professor of Social Welfare (OSD), Directorate of Secondary & Higher Education, Dhaka.
Fellowship session/year	: 2018-2019 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: Monash University, Australia
Name of the degree	: PhD in Sociology
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Acquired knowledge and skills increase efficiency and effectiveness in the workplace. 2. Improved quality of employees in producing/delivering products/services to stakeholders. 3. Improved understanding of position duties and institutional goals to avoid costly mistakes and ensure sound decision-making. 4. Increased creativity and innovation for new ideas and solutions. 5. Navigate change and uncertainty to adapt to new challenges in the workplace.

Name	: Muhammad Talut
BCS Cadre & Batch	: BCS (Administration), 29 th Batch
Present working institution & designation	: ADC (G), Shariatpur
Fellowship session/year	: 2018-2019 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: The University of Southampton, UK
Name of the degree	: PhD in Engineering and the Environment (Sustainable Energy Planning)
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ The study will produce an overview of the rationality of renewable transition in a developing country challenged with several endemic constraints. ◆ It will provide a systemic understanding of the dynamics of renewable transition and the effects of various influential factors on it.

Name	: Aminul Islam
Present working institution & designation	: Bangladesh Judicial Service; Additional District and Sessions Judge
Fellowship session/year	: 2018-2019 (1 st Phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Sussex, United Kingdom
Name of the degree	: PhD in Law Studies
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. In ensuring justice by determining the correct implied meaning of the law; 2. Ensuring fair and expeditious justice; 3. Ensuring the due application of established principles of international law in domestic justice systems; 4. To become a worthy combatant in any illegal fight for the best interests of the government and the country.

Name	: Dr. Sanjoy Kumar Chanda
Present working institution & designation	: Sociology Discipline, Khulna University, Associate Professor
Fellowship session/year	: 2018-2019 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Leeds, UK
Name of the degree	: PhD in Healthcare
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Helping to design curriculum for some health-related courses, such as Sociology of Health and Illness and Public Health; 2. Assisting to teach health and research related courses to students in the classroom; 3. Assisting to do research on public health issues; 4. Helping to share my acquired knowledge with colleagues in order to enhance their knowledge;

Name	: Tahmina Ruba
Present working institution & designation	: Assistant Professor, Dept. of Pathology, Bangladesh Agricultural University Mymensingh
Fellowship session/year	: 2018-2019 (1 st Phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Aberdeen, Scotland, UK
Name of the degree	: PhD in Molecular Biology
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Acquired knowledge will help to increase fish production in Bangladesh 2. Will help to introduce advanced molecular technology in fisheries sector 3. Will help to identify new fungal diseases, treatment and effective control measures 4. Acquired knowledge will be disseminated to students and researchers 5. Finally, will play important role to achieve SDG-1, SDG-2 and SDG-14

Name	: Dr. Md. Anisuzzman
Present working institution & designation	: Associate Professor, Department of Pharmacy Discipline, Khulna University
Fellowship session/year	: 2018-2019 (1 st phase)
Name of the course under PM fellowship	: Development of novel Nano immunotherapeutic for the targeted treatment against resistant cancers.
Name of the University	: The University of Sydney, Australia
Name of the degree	: PhD in Pharmacy
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. My research work findings help to initiate nanoparticle based anticancer research in pharmacy science department student. 2. Published scientific reports help to grow awareness and knowledge in the immunotherapeutic treatment strategy against cancers. 3. This advanced level cancer research has led to an improved development of anti-cancer drugs to help achieve the SDG 3 target of reducing deaths from non-communicable diseases.

Name	: Rehenuma Rahman
Present working institution & designation	: Premier University, Chattogram
Fellowship session/year	: 2018-19 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Glasgow, Scotland, UK
Name of the degree	: PhD in Accounting
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ Sustainable Development ◆ Partnership between Premier University and UK universities ◆ Establishing 'Sustainability Hub' at Premier University ◆ Training on Research Method ◆ Teaching, learning, and supervising

Name	: Nusrat Khan
Fellowship session/year	: 2018-19 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Cambridge, UK
Name of the degree	: PhD in Primary Care and Public Health

Name	: Abul Bashar Mohammed Fakhruzzaman
BCS Cadre & Batch	: BCS (Administration), 24 th Batch
Present working institution & designation	: Deputy Commissioner (DC), Office of the Deputy Commissioner, Chattogram
Fellowship session/year	: 2019-20 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: The Australian National University, Australia
Name of the degree	: PhD in Economics
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: <ol style="list-style-type: none"> 1. The acquired knowledge helps in understanding different important economic indicators. 2. The academic knowledge assists in analyzing the economic and social impacts of government policies to implement those. 3. It helps to quantitatively analyze how the government policies and decisions can be more effectively utilized. 4. It helps in making citizen centric prompt decisions.

Name	: Tahmina Begum
BCS Cadre & Batch	: BCS (General Education), 24 th Batch
Present working institution & designation	: Assistant Professor, Chemistry., DSHE Training wing (OSD).
Fellowship session/year	: 2019
Name of the course under PM fellowship	: PhD
Name of the University	: Newcastle University, UK
Name of the degree	: PhD in Chemistry.
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Academic knowledge and skills, 2. Latest scientific technology and advancements 3. Research practice 4. Publications and procedures 5. Application in practical laboratory.

Name	:
BCS Cadre & Batch	:
Present working institution & designation	:
Fellowship session/year	:
Name of the course under PM fellowship	:
Name of the University	:
Name of the degree	:
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. I have acquired expertise in international trade and development, which can help me create policies and programs at my workplace. 2. I am better prepared to use evidence to make decisions and measure success by analysing legal, economic, and data factors. 3. The research has given me a well-rounded perspective on development that I may use to synchronise efforts in different departments to improve outcomes.

Name	: Asif Iqbal
BCS Cadre & Batch	: BCS (Administration), 29 th Batch
Present working institution & designation	: OSD, Ministry of Public Administration
Fellowship session/year	: 2018-19, 2 nd phase
Name of the course under PM fellowship	: PhD
Name of the University	: University of Liverpool, UK
Name of the degree	: PhD in Economics and Finance
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: Economic Research and Analysis: As a civil servant, I can conduct rigorous economic research, analyze complex data, and provide valuable insights into macroeconomic trends, challenges, and opportunities. I can work in the macroeconomic wing of the Finance division and utilize my knowledge.

Name	: Dr. K M Alamgir Kabir
BCS Cadre & Batch	: BCS (Administration), 27 th Batch
Present working institution & designation	: Deputy Seceratry, Internal Resources Division, Ministry of Finance.
Fellowship session/year	: 2018-2019 (2 nd phase)
Name of the course under PM fellowship	: PhD (Economics)
Name of the University	: The University of Adelaide, Australia
Name of the degree	: PhD in Economics
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: 1. Mobilizing internal resources; 2. Revenue policy formulation; 3. Revenue net increase; 4. Human resources development of the Customs and VAT employees; 5. Bringing transparency in revenue administration;

Name	: Md Ahsan Uddin Murad
BCS Cadre & Batch	: BCS (Administration), 28 th Batch
Present working institution & designation	: OSD, Ministry of Public Administration
Fellowship session/year	: July, 2019
Name of the course under PM fellowship	: PhD
Name of the University	: University of Technology, Sydney, Australia
Name of the degree	: Big Data Analytics, Public Procurement and Sustainability

Name	: Mohammad Badsha Hossain
BCS Cadre & Batch	: BCS (Family Planning), 21 st Batch
Fellowship session/year	: 2018-19 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Reading, UK
Name of the degree	: PhD in Human Geography & Population Studies
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: <ol style="list-style-type: none"> 1. The enhanced knowledge will help me to explore gaps of Family Planning (FP) services in my country 2. The knowledge will dictate me formulate policy issues in meeting the gaps in FP 3. The knowledge will help me to implement the proven best practices in FP in other countries in my country.

Name	: Arif Ahmed Zufi
BCS Cadre & Batch	: BCS (General Education), 22 nd Batch
Present working institution & designation	: Associate Professor of English (OSD), DSHE, Dhaka, Bangladesh
Fellowship session/year	: 2018-19, 2 nd phase
Name of the course under PM fellowship	: PhD (Education)
Name of the University	: University of East Anglia, UK
Name of the degree	: PhD in Education
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	This PhD course will enhance my pedagogical knowledge, research skills, and awareness of govt policy regarding English language education, education policy implementation approaches in the context of Bangladesh, various education theories in wider perspectives, coordination among different levels of stakeholders, education leadership and management etc. This will substantially contribute to my service delivery at my workplace.

Name	: Masudur Rahman Siddiqui
BCS Cadre & Batch	: BCS (General Education), 26 th Batch
Present working institution & designation	: Officer on Special Duty, (Assistant Professor of English), DSHE, Dhaka
Fellowship session/year	: 2018-19, 2 nd phase
Name of the course under PM fellowship	: PhD in Education (Thesis: BSER: Making Sense of the Neoliberal Influence)
Name of the University	: University of Warwick, UK
Name of the degree	: PhD in Education
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ The research skills acquired will enhance my ability in preparing, evaluating and monitoring educational development project proposals. ◆ I will learn how to contribute to devising strategic actions regarding educational policy reforms in Bangladesh. The knowledge acquired will inform these strategic actions pertaining to external intervention in our local policy reform.

Name	: Mohammad Mahbubur Rahman
Present working institution & designation	: Deputy Secretary, Ministry of Commerce
Fellowship session/year	: 2019 -20 (2 nd phase)
Name of the course under PM fellowship	: PhD in Applied Economics
Name of the University	: University of South Australia, Australia
Name of the degree	: PhD in Applied Economics
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<p>1. I have learned how to formulate evidence-based policy. One of the major responsibilities of the ministry is to formulate policy. This skill will be helpful to formulate evidence-based effective policy for the betterment of the country.</p> <p>2. It is also important to investigate whether a policy is effectively working or not. My research was basically evaluating policy. This skill will help the government to investigate whether the policy is working as desired or not and if any further correction is needed.</p>

Name	: Md Rafiqul Islam
BCS Cadre & Batch	: BCS (Statistical), 24 th Batch
Present working institution & designation	: Posts and Telecommunications Division
Fellowship session/year	: 2018-2019 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: Macquarie University, Australia
Name of the degree	: PhD in Economics
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<p>As I have completed my PhD in Economics on gender pay gap in the labor market of Bangladesh, so my knowledge will not be directly and equally useful for every sector of the government. I believe I can contribute to the following ministries/fields provided I am posted in the right desk:</p> <p>(i) Finance Division (ii) Economic Relations Division (ERD)</p>

Name	: Shinthia Azmeri Khan
BCS Cadre & Batch	: BCS (Roads and Highways Cadre), 29 th Batch
Present working institution & designation	: Deputy Project Manager-6, Ministry of Road Transport and Bridges
Fellowship session/year	: Session-2, 2018
Name of the course under PM fellowship	: PhD
Name of the University	: Queensland University of Technology, Queensland, Australia
Name of the degree	: PhD. in Transportation Engineering (Road Safety)
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. To investigate the critical factors related to road crashes based on local crash data and suggest the proper countermeasures 2. To understand the risk factors related to drivers' behavior and suggests the appropriate policy to reduce the unsafe driving attitudes

Name	: Dr. Nelima Ibrahim
BCS Cadre & Batch	: BCS (Livestock)
Present working institution & designation	: PhD researcher, Ghent University, Belgium
Fellowship session/year	: 2019-2020 (2 nd phase)
Name of the course under PM fellowship	: Veterinary Epidemiology
Name of the University	: Ghent University, Belgium
Name of the degree	: PhD in Veterinary Epidemiology
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. provide an accurate insight in the prevalence of resistance in E. coli of conventional broiler and sonali birds as well as identify factors influencing the antimicrobial use in these production systems. 2. farmers will gain information on antimicrobial use (AMU) & antimicrobial resistance (AMR) along with biosecurity and learn how to keep recordings of antimicrobial use and this will increase their knowledge on importance of farm record keeping in general.

Name	: Shah Abdul Saadi
BCS Cadre & Batch	: BSC (Administration), 24 th BCS
Present working institution & designation	: Ministry of Public Administration
Fellowship session/year	: 2018-2019
Name of the course under PM fellowship	: PhD
Name of the University	: University of Sussex, UK
Name of the degree	: PhD in Technology and Innovation Management
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	Formulation of renewable energy policies and governance of large utility-scale renewable energy (RE) projects with particular focus on: <ul style="list-style-type: none"> ◆ Organizational and technological capability development ◆ Fiscal and policy support to streamline and encourage private investment in RE development projects

Name	: Sarker Omar Faroque
BCS Cadre & Batch	: BSC (Police), 25 th BCS
Fellowship session/year	: 2018-19
Name of the course under PM fellowship	: PhD
Name of the University	: University of Essex, UK
Name of the degree	: PhD in Green Criminology

Name	: Tanvir Bashir
BCS Cadre & Batch	: BCS (Administration), 28 th Batch
Present working institution & designation	: Officer on Special Duty (Sr. Assit. Secretary), Ministry of Public Administration
Fellowship session/year	: 2019
Name of the course under PM fellowship	: PhD
Name of the University	: The Australian National University, Australia
Name of the degree	: PhD in Economics
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. A PhD in Economics equips me with the theoretical knowledge required to work in my professional field. 2. It enhances my critical thinking. 3. It trained me to be more resilient in my work. 4. It will distinguish me from most of my fellow workers by an advanced degree. 5. A PhD from abroad increased my compatibility to work in the international level.

Name	: Jasim Uddin Khan
BCS Cadre & Batch	: BCS (Police), 28 th Batch
Fellowship session/year	: 2018-2019
Name of the course under PM fellowship	: PhD
Name of the University	: University of Birmingham, UK
Name of the degree	: PhD Social Policy, Sociology and Criminology
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ Risk assessment in police operation ◆ Data management plan ◆ Appropriate conduct when interviewing/interrogating people ◆ Legitimate policing practices towards cultivating a much-needed positive public perception

Name	: Mohammed Hossain Sarker
BCS Cadre & Batch	: BCS (Admin), 22 nd Batch
Present working institution & designation	:
Fellowship session/year	: 2018-19
Name of the course under PM fellowship	: PhD
Name of the University	: University of York, UK
Name of the degree	: PhD in Politics
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: If I am posted in a relevant ministry, I will contribute by (I) offering research knowledge in policy formulation and implementation in relation to migration governance; (II) applying research knowledge in decision making within jurisdiction; (III) sharing research knowledge with senior/junior colleagues; (IV) exploring and implementing good examples in relation to migration (V) applying evidence-based knowledge on day-to-day migration management.

Name	: Moon Moon Sultana
BCS Cadre & Batch	: Ansar, 27 th Batch
Present working institution & designation	: 1 Female Ansar Battalion, Ansar & VDP Academy, Director
Fellowship session/year	: 2018-2019, 2 nd Phase
Name of the course under PM fellowship	: PhD
Name of the University	: University of Aberdeen, Scotland, UK.
Name of the degree	: PhD in Sociology.
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: <ol style="list-style-type: none"> 1. Enrichment of knowledge which will help delivering quality service. 2. Will be able to work for research and development of my department. 3. Will be able to contribute in policy formulation with regard to women empowerment. 4. Will be able to contribute for the development of training sector for troops and officers of my department.

Name	: Md Ahasan Habib
Present working institution & designation	: Assistant Professor, Physics Discipline, Khulna University, Khulna, Bangladesh
Fellowship session/year	: 2018-19, (2 nd phase)
Name of the course under PM fellowship	: PhD in Physics and Astronomy (Physics)
Name of the University	: University of Leeds, UK
Name of the degree	: Doctor of Philosophy (PhD in Physics)
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ Gain expertise of cutting edge research ideas on photovoltaic technologies for power generation ◆ Innovate sustainable devices for future generation with reduced power loss and high efficiency. ◆ Incorporate spin photovoltaics as future emerging technologies for information storage

Name	: Mohammad Robel Hossen Patwary
Present working institution & designation	: Senior Scientific Officer, Bangladesh Council of Scientific and Industrial Research
Fellowship session/year	: 2018-2019
Name of the course under PM fellowship	: Climate Change
Name of the University	: University of Sheffield, UK
Name of the degree	: PhD in School of Biosciences
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<p>Agriculture is the potential source of non-CO₂ greenhouse gases such as methane (CH₄) and nitrous oxide (N₂O), contributing half of its emissions. Methane has 28, and nitrous oxide has 300 times more global warming potential (GWP) than that CO₂. Rice cultivation contributes ~10% of methane and nitrous oxide emissions. Bangladesh is an agriculture-based country, and ~85% of agricultural land is used for rice cultivation because rice is a staple food in Bangladesh. As a result, increasing rice cultivation to achieve zero hunger (SDG) without compromising the climate (SDG) further is an enormous challenge.</p>

Name	: Shaila Haque
Present working institution & designation	: Assistant Professor, University of Barishal
Fellowship session/year	: 2018-19, 2 nd Phase
Name of the course under PM fellowship	: Neuroscience
Name of the University	: University of Sheffield, UK
Name of the degree	: PhD in Neuroscience
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Exploring the research in the field of genetic analysis 2. Designing ALS therapies for the Bangladeshi community in collaboration with laboratories of developed countries 3. Building up collaborative work with medical sectors in Bangladesh 4. Ensuring healthy lives and promoting well-being for All at All Ages 5. Partnerships to achieve the Goal

Name	: Alokesh Kumar Ghosh
Present working institution & designation	: Associate Professor, Fisheries and Marine Resource Technology Discipline, KU
Fellowship session/year	: 2018-2019 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: KU Leuven, Belgium.
Name of the degree	: PhD in Science.
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ The extensive research and in-depth study conducted during my PhD program allow me to gain a profound understanding of the respective subjects. This allows me to successfully explain concepts to students, as well as provide accurate and current information. ◆ This knowledge enables me to design and develop curriculum materials in accordance with the most recent research findings and educational standards.

Name	: Md Tajminur Rahman
Present working institution & designation	: Deputy Director, Department of Environment
Fellowship session/year	: 2018-2019 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: Michigan State University, USA
Name of the degree	: PhD in Geography
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ Rationalizing the influence of Urban Land Use/Land Cover (LULC) change on local environment and micro-climate. ◆ Possible ways to minimize Urban Heat Island (UHI) impact from different LULC characteristics. ◆ Way forward to reduce possible impacts on local environment and micro-climate due to LULC change in urban areas especially in Dhaka City.

Name	: H M Syfuddin
Present working institution & designation	: PhD Fellow, Department of Oncology, University of Oxford
Fellowship session/year	: 2018-19 (2 nd phase)
Name of the course under PM fellowship	: PhD in Oncology
Name of the University	: University of Oxford, UK
Name of the degree	: PhD in Oncology
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<p>Cancer incidence and mortality rates are rising unprecedentedly in Bangladesh because of its distinct demographic and genetic profile, and research allows us to optimize treatment approaches based on Bangladesh's specific needs and resources. In this regard, the DPhil in the Department of Oncology at the University of Oxford helps me experience cutting-edge scientific advancements to evaluate the feasibility and efficacy of innovative treatment options in the local context. Following completion, it will help me develop a sustainable research ecosystem and enhance the overall scientific landscape of the country's cancer research. Collaborating with local and international cancer research institutions and organizations will also provide me with opportunities for knowledge sharing, technology</p>

Name	: Sabiha Matin
Fellowship session/year	: 2018-2019 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: The University of Newcastle, Australia
Name of the degree	: PhD in Management
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ Data-Driven Policy Development ◆ Industry Development and Advocacy ◆ International Promotion of Bangladesh ◆ Holistic Understanding for Advanced Teaching ◆ Sustainable Tourism Promotion

Name	: Humaira Naznin
Present working institution & designation	: Senior Lecturer, BRAC University
Fellowship session/year	: 2018-2019 (2 nd phase)
Name of the course under PM fellowship	: PhD in Management
Name of the University	: Macquarie University, Australia
Name of the degree	: PhD in Management
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ Integrating evidence-based research into tertiary level teaching. ◆ Applying contemporary knowledge on industrial relations management and initiating a teaching and research focus in the context of Bangladesh and the Global South. ◆ Developing a tertiary level module on Occupational Health and Safety (OHS) management, prioritizing existing and emerging OHS issues and challenges in the emerging economies including Bangladesh.

Name	: Dr. Mohammad Ali
BCS Cadre & Batch	: BCS (Health), 28 th Batch
Present working institution & designation	: Nuffield Department of Medicine, Univeristy of Oxford, United Kingdom
Fellowship session/year	: 2019-20 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Oxford, UK
Name of the degree	: PhD in Clinical Medicine
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Advancing vaccine development for future pandemics; 2. Pioneering innovative treatment strategies for non-communicable diseases in Bangladesh; 3. Capacity building and empowering future clinical researchers; 4. Catalyzing international collaborations for health research; 5. Advocating Evidence-Based Public Health Policies.

Name	: Tohmima Khatoon
BCS Cadre & Batch	: BSC (Administration), 27 th Batch
Present working institution & designation	: Deputy Secretary (OSD), Ministry of Public Administration
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: PhD in Science and Technology Policy Studies
Name of the University	: University of Sussex, UK
Name of the degree	: PhD in Science and Technology Policy Studies
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: Sustainable transport policy formulation, implementation and evaluation, with particular focus on the Global South mega cities.

Name	: Nawsher Ahmed Sikder
BCS Cadre & Batch	: BCS (Administration), 29 th Batch
Present working institution & designation	: On Deputation
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: PhD in Politics
Name of the University	: University of Nottingham, UK
Name of the degree	: Political Economy of Development Finance from Emerging Donors
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ Determining Government's Policy in South-South Cooperation ◆ Understanding the role of the Southern donors in enhancing the infrastructural capacity of Bangladesh ◆ Assessing the role of Development finance from southern sources in the debt sustainability of the country

Name	: Salahuddin Mohammad
BCS Cadre & Batch	: BCS (Health), 33 rd Batch
Present working institution & designation	: Assistant Surgeon, Directorate General of Health Services (DGHS)
Fellowship session/year	: 2019-20 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: Uppsala University, Sweden
Name of the degree	: PhD in Neuroscience
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Advancement of knowledge on Autism and implication at government level 2. Enrichment of the general peoples' health management with recent advanced knowledge 3. Application of research at work level and application of the data 4. Teaching and educating newer generation 5. Organizational work and team management with proper coordination and collaboration

Name	: Wahida Musarrat Anita
BCS Cadre & Batch	: BCS (Administration), 20 th Batch
Present working institution & designation	: OSD (Deputy Secretary), Ministry of Public Administration
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: Global Environmental Studies
Name of the University	: Kyoto University, Kyoto, Japan
Name of the degree	: PhD in Global Environmental Studies
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<p>My research is on Climate change, air pollution and health impact. From the knowledge acquired during my research work in Kyoto University, the following issues can be contributed after going back to Bangladesh and resuming my duty</p> <ol style="list-style-type: none"> 1. The association of climate change and air pollution. 2. Mathematical modelling of climate change and SSP scenarios 3. Situation analysis of future environmental challenged due to climate change

Name	: Roksana Tarannum
BCS Cadre & Batch	: BCS (Administration), 20 th Batch
Present working institution & designation	: Ministry of Public Administration, DS (OSD on study)
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: PhD in Climate Change and Community Resilience in Bangladesh
Name of the University	: Flinders University, Australia
Name of the degree	: PhD in Geography and Population Studies
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<p>On return after being posted, the knowledge acquired from the study will be applied in -</p> <ul style="list-style-type: none"> ◆ Climate-inclusive planning, including drafting of policy documents; ◆ Ensuring effective climate action and accelerating sustainable development through addressing the key areas as identified in the research;

Name	: ATM Shariful Alam
BCS Cadre & Batch	: BCS (Administration), 25 th Batch
Present working institution & designation	: Deputy Secretary, Ministry of Public Administration
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: Floating PV system for the sustainable development of Bangladesh
Name of the University	: University of Nottingham, UK
Name of the degree	: PhD in Environmental Science
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ Since floating solar PV systems are not yet commercially or officially installed in Bangladesh, so it is my duty to inform the concerned ministries/departments regarding this area. ◆ Floating solar PV systems are preferred as an alternative to protect agricultural land in many developed and other Asian countries while SREDA/Power Cell has not yet officially installed any such pilot projects.

Name	: Saiful Islam
BCS Cadre & Batch	: BCS (Administration), 28 th Batch
Present working institution & designation	: Ministry of Public Administration
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: PhD in Business Studies and Management
Name of the University	: University of Southampton, UK
Name of the degree	: PhD in Business Studies and Management
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<p>The PhD endeavor will equip me to deliver the responsibilities better by the following ways</p> <ol style="list-style-type: none"> 1. will be able to design and implement Government programs and responsibilities aligning with the sustainable global agenda and goals as my primary study focus is sustainability integration.

Name	: Md Mahmudul Hoque
BCS Cadre & Batch	: BCS (Administration), 29 th Batch
Present working institution & designation	: Additional Deputy Commissioner, (Education and ICT), Sherpur
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: PhD (Development Studies)
Name of the University	: University of Sussex and Coventry University, UK
Name of the degree	: PhD in Development Studies (Social norms, child labour and national policies)
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Understanding the current regulatory and policy framework concerning child labour in Bangladesh, and advocating for required changes at all levels 2. Recognizing the social norms relating to child labour in Bangladesh and striving to influence those norms 3. Help implementing child labour laws and policies at the district level

Name	: Nigar Sultana Parvin
BCS Cadre & Batch	: BCS (General Education), 24 th Batch
Present working institution & designation	: Assistant Director, Directorate of Secondary & Higher Education Bangladesh, Dhaka.
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Birmingham, United Kingdom.
Name of the degree	: PhD in Environmental Health and Risk Management.
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. The research will assist the country's sustainable development goal. 2. It will provide support in the education of students as a geography and environment teacher. 3. Will analyze the advantages and disadvantages of the Urban Heat Island impact in the Dhaka megacity area and acquire a comprehensive understanding of the matter.

Name	: Md Mamunur Rashid
BCS Cadre & Batch	: BCS Roads & Highways (Civil), 25 th Batch
Present working institution & designation	: Executive Engineer (RHD), Road Division, Munshiganj.
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: Imperial College London, UK
Name of the degree	: PhD in Intelligent Transport Systems (ITS)
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Finding problems of Highways (Expressways) in Bangladesh 2. Present approach of dealing with the problems 3. Limitations of present approach 4. Ways to overcome the limitations 5. Actionable recommendations for future Expressways

Name	: Md Amdad Hossan
BCS Cadre & Batch	: BCS Information (Engineering), 30 th Batch
Present working institution & designation	: Deputy Station Engineer, Bangladesh Betar
Fellowship session/year	: 2019-20 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Queensland, Australia
Name of the degree	: PhD in Communication and Arts
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. I am playing a role in making Bangladesh Betar a modern broadcasting medium by giving feedback informally in the formulation and implementation of the policy of new media broadcasting of Bangladesh Betar. 2. Research on how to make Bangladesh Betar a popular media again by determining the obstacles (policy and technical) to make audience more involved in solving social problems using new media is in the final stage.

Name	: Md Moniruzzaman
BCS Cadre & Batch	: BCS (Administration), 29 th Batch
Present working institution & designation	: Senior Assistant Secretary (OSD on Study), Ministry of Public Administration
Fellowship session/year	: 2019-20 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Southampton, UK
Name of the degree	: PhD in Geography
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	1. The subject of my PhD research is “Impacts of Land Acquisition Across Communities: Exploring the Special Economic Zones (SEZs) in Bangladesh” which provides me exposure to the rules and policies of land acquisition and resettlement in the global context;

Name	: Shahadat Hosan
BCS Cadre & Batch	: BCS (Administration), 27 th Batch
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: Kyushu University, Japan
Name of the degree	: PhD in Energy Engineering and Policy
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ Contribution to sustainable energy planning and policy formulation , aiming to ensure affordable and clean energy for all, in alignment with SDG-7. ◆ Contribution to efficient management, monitoring, and evaluation of energy projects and programs. ◆ Contribution to the review and reform of energy subsidies programs to promote energy sustainability and economic development.

Name	: Md. Alamgir Jalil
BCS Cadre & Batch	: BCS (General Education), 27 th Batch
Present working institution & designation	: Assistant Professor (Accounting), Directorate of Secondary and Higher Education, Dhaka
Fellowship session/year	: 2019-20 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Essex, United Kingdom
Name of the degree	: PhD in Accounting
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Increasing awareness on sustainability issues and building leadership for sustainability through teaching relevant modules of business studies 2. Teaching students on sustainability issues in particular, water management, accounting, and reporting water performances 3. Providing practical lesson on how SDG-6 and 14 can be achieved through the appropriate institutional/ corporate accountability for water consumption and pollution

Name	: Prabal Chowdhury
BCS Cadre & Batch	: BCS (Livestock), 33 rd Batch
Fellowship session/year	: 2019-20 (1 st phase)
Name of the course under PM fellowship	: PhD in Veterinary Science
Name of the University	: The University of Melbourne, Australia
Name of the degree	: PhD in Veterinary Epidemiology
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. The acquired knowledge will help me establish proper animal disease surveillance strategies. 2. My knowledge in animal welfare science may contribute to a safer animal product export to international markets in terms of any future welfare related sanctions. 3. Academic knowledge gathered through the course will help me disseminate related information to the stakeholders in Bangladesh.

Name	: Mohammad Alamgir Hossain
BCS Cadre & Batch	: BCS (General Education), 24 th batch
Present working institution & designation	: Officer on Special Duty, Directorate of Secondary and Higher Education
Fellowship session/year	: 2019-20 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Surrey, UK
Name of the degree	: PhD in Environment and Sustainability
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<p>My acquired knowledge is expected to contribute in various ways, encompassing the following:</p> <ol style="list-style-type: none"> 1. Students under my wing stand to benefit from my acquired knowledge and experience. 2. My class lectures can be enhanced with the incorporation of modern concepts and methodologies. 3. The quantitative knowledge I have acquired may open numerous research opportunities. 4. I can contribute to the advancement of institutional development.

Name	: Md. Mizanur Rahman
Present working institution & designation	: Associate Professor, Jahangirnagar University
Fellowship session/year	: 2019-20 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Oxford, UK
Name of the degree	: PhD in Archaeological Science
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. There is no expert on archaeological science, particularly on archaeobotany, in Bangladesh. This fellow will start a new discipline of education and research after returning to the country through which a national capacity will be achieved. It is expected that Bangladesh will get excellency over other South Asian nations in this particular sector.

Name	: Nadra Tabassum
Present working institution & designation	: Assistant Professor, University of Dhaka (Study Leave).
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Edinburgh, Scotland, UK
Name of the degree	: PhD in Molecular Plant Sciences
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. I aim to utilize the knowledge and skills acquired from world-renowned researchers and advanced research methods to improve the quality and productivity of agriculture and native crop species. 2. This will lead to a focus on sustainable practices and innovative approaches that will assist to conserve natural resources, promoting renewable energy sources, and executing eco-friendly research activities.

Name	: Nazia Hassan
Present working institution & designation	: Associate Professor, Environmental Science Discipline, Khulna University
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: PhD Course in Bioscience Engineering
Name of the University	: Ghent University, Belgium
Name of the degree	: PhD in Bioscience Engineering (Department of Green Chemistry & Technology)
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ My PhD project aims to develop circular economy-based municipal wastewater (MWW) treatment technology to protect the environment and public health from water pollution and assist Bangladesh and the globe achieve the SDGs. ◆ My PhD research optimizes Electrocoagulation Flotation (ECF) technology to provide an energy-efficient, low-cost, chemical-free one-unit MWW treatment system that meets the SDGs' 7th target of clean technology for everyone.

Name	: Md. Moyazzem Hossain
Present working institution & designation	: Associate Professor, Jahangirnagar University
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: Newcastle University, UK
Name of the degree	: PhD in Statistics
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ I will be able to spread my acquired knowledge among people through my teaching, and research collaboration. ◆ I will be capable to solve real-life problems utilizing my acquired knowledge that will be helpful to make different policies. ◆ Moreover, I strongly believe that I can produce many Statisticians, and no doubt my Department can benefit from me as well as my country in general.

Name	: Abdullah-Al-Masud
Present working institution & designation	: Assistant Professor, Environmental Science Discipline, Khulna University
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: PhD in Water Systems and Global Change
Name of the University	: Wageningen University and Research, Netherlands
Name of the degree	: PhD in Environmental Sciences
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<p>As a faculty member in a university, research and teaching are my prime responsibilities and this PhD programme will surely make me more confident in my profession. This programme provides ample opportunities to enrich my theoretical knowledges and analytical ability. Now I am more confident to analyze a complex environmental problem in a structured way and from different context. I do believe, I will utilize this advanced knowledge and experiences to enhance my teaching and research skills in near future. I confident that I can share all my knowledge with my colleagues and students to ensure sustainable development in my beloved Bangladesh.</p>

Name	: Bisakha Dewan
Present working institution & designation	: Assit. Prof., Dept of Agribusiness and Marketing, Sher-e-Bangla Agricultural University
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Queensland, Australia
Name of the degree	: PhD in Agribusiness
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: 1. PhD in Agribusiness specialising in women's empowerment will help me pursue academic careers, conduct research, publish scholarly articles, and teach courses to disseminate knowledge and mentor future students in agribusiness, especially in women and gender empowerment in all sectors in Bangladesh.

Name	: Rafsanjany Kushol
Present working institution & designation	: Lecturer, Islamic University of Technology (IUT), Gazipur, Bangladesh
Fellowship session/year	: 2019-20 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Alberta, Edmonton, AB, Canada
Name of the degree	: PhD in Computing Science
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: 1. Supervising undergraduate students with cutting-edge AI technology. 2. Publishing students research works in top conference and journals. 3. Updating the syllabus of the department similar to the world's best educational institutions. 4. Teaching students the latest AI techniques related to my PhD topic. 5. Assisting radiologist or doctors for applying automated AI methods for MRI scans.

Name	: Salma Begum
Present working institution & designation	: Ahsanullah University of Science and Technology
Fellowship session/year	: 2019-2020 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: Katholieke Universiteit Leuven, Belgium
Name of the degree	: PhD in Architecture
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ Critical site analysis ◆ Critical cartographic map making ◆ Better Public Space Designing ◆ Proposing water management strategies ◆ Creating sustainable Urban realm strategy

Name	: M. Shan-E-Alam Misty
BCS Cadre & Batch	: BCS (Administration), 28 th Batch
Present working institution & designation	: Senior Assistant Secretary, Ministry of Water Resources
Fellowship session/year	: 2019-2020 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: The University of Sydney, Australia
Name of the degree	: Ph.D. in Anthropology
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Gathering in-depth knowledge on relevant study areas. 2. Building a strong network worldwide. 3. Developing skills in writing, presenting, researching, and communication. 4. Foreign country exposure will enhance knowledge of other cultures, socioeconomic conditions, and government management systems. 5. Specialized knowledge will assist in making better policies.

Name	: Salma Akter Khuky
BCS Cadre & Batch	: BCS (Roads and Highways), 24 th Batch
Present working institution & designation	: Deputy Secretary, Road Transport and Highways Division
Fellowship session/year	: 2019-20 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Leeds, UK
Name of the degree	: PhD in Transport Studies
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Finding problems of public transport in Bangladesh 2. Present approach of dealing with the problems 3. Limitations of present approach 4. Ways to overcome the limitations 5. Actionable recommendations for future

Name	: Mohammed Ali Nause Russel
BCS Cadre & Batch	: BCS (Administration), 24 th Batch
Present working institution & designation	: Deputy Secretary (OSD), Ministry of Public Administration
Fellowship session/year	: 2019-20 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Glasgow, Scotland, UK
Name of the degree	: PhD in Environmental Sustainability
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Capacity Development of SDG implementation. 2. Capacity Development for Environmental Protection. 3. Problem Identification and structured solution approach. 4. Capacity to customize International best practices for Bangladesh. 5. Capacity development to do Scientific research

Name	: Abdul Mohammed Mokter Hossain
BCS Cadre & Batch	: BCS (Administration), 24 th BCS
Present working institution & designation	: Deputy Secretary (OSD), Ministry of Public Administration
Fellowship session/year	: 2019-20 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Glasgow, Scotland, UK
Name of the degree	: PhD in Environmental Sustainability
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. The acquired knowledge can be used to formulate necessary policy, plan, project etc. to ensure a sustainable food security system in Bangladesh. 2. The acquired knowledge can be used to strengthen multilateral relationships regarding food security between international agencies (i.e FAO, IFPRI, WFP) and Bangladesh. 3. The acquired knowledge can be used in signing bilateral agreements on food security with different countries/agencies and achieving targets of agreements.

Name	: Most. Aliza Khatun
BCS Cadre & Batch	: BCS (Fisheries), 33 rd Batch
Present working institution & designation	: The University of Western Australia, PhD student
Fellowship session/year	: 2019-2020 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: The University of Western Australia, Australia
Name of the degree	: PhD in Environmental Science
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Protection and prevention of extinction of threatened and endangered aquatic species 2. Investigating the impact of climate change on freshwater and marine ecosystem 3. Investigating the impact of urbanization and human intervention to reduction of aquatic species 4. Sustainable use and management of wetlands biodiversity and marine resources 5. Ability to conduct independent new scientific research at my workplace.

Name	: Abul Hasnat Md Shahadat Hossain
BCS Cadre & Batch	: BCS (Livestock), 24 th Batch
Present working institution & designation	: Upazila Livestock Officer, Department of Livestock Services, Dhaka-1215
Fellowship session/year	: 2019-20 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Liverpool, UK
Name of the degree	: PhD in Sustainable Food Systems
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Exploring the molecular characteristics of Antibiotic Resistance Genes (ARGs) in animal-originated food products. 2. Identifying and examining potential risks associated with the emergence of ARGs. 3. The impact of antibiotics on the presence of ARGs. 4. The importance of involving the community in activities to increase awareness of antibiotic resistance in veterinary practices.

Name	: Ashfiqun Nahar
BCS Cadre & Batch	: BCS (Administration), 29 th Batch
Present working institution & designation	: Senior Assistant Secretary, Ministry of Public Administration
Fellowship session/year	: 2019-20 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Sussex, United Kingdom
Name of the degree	: PhD in International Development
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Improvement of working environment for government officers, especially for women. 2. Focusing on the health and well-being of mid-age women in the health policy. 3. Focusing on the issues in the path of career development of women in Bangladesh Civil Service. 4. Creating gender sensitivity at work place.

Name	: Avijit Dutta
Fellowship session/year	: 2019-2020 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Cambridge, UK
Name of the degree	: PhD in Medicine
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: <ol style="list-style-type: none"> 1. Quality research and teaching 2. Research collaboration 3. Service to community 4. Student engagement.

Name	: Farzana Alam
Present working institution & designation	: Assit. Prof., Dept. of Genetic Engineering & Biotechnology, Jagannath University
Fellowship session/year	: 2019-2020 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: Imperial College London, UK
Name of the degree	: PhD in Chemical Engineering
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: <ol style="list-style-type: none"> 1. Contribute on innovation and cutting-edge research on vaccine and biologics development. 2. Contribute to the biopharmaceuticals production in smaller facilities at point of care as hospitals and the single batches could be made for immediate patient care to deal with infectious and life-threatening diseases.

Name	: Istiaque Ahmed
Fellowship session/year	: 2019-20 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: Delft University of Technology (TU Delft), Netherlands
Name of the degree	: PhD in Urban Design/Architecture
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ First and foremost, it will help to develop as a researcher. ◆ Will contribute to improving the quality of teaching. ◆ Specialized knowledge acquired in the specific field can be used for the welfare of my country, society, and most importantly our people. ◆ Journal articles published from the research will help knowledge dissemination within and outside the country.

Name	: SM Safiqur Rahman
Present working institution & designation	: Major, Bangladesh ARMY
Fellowship session/year	: 2019-2020 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: The University of Melbourne, Australia
Name of the degree	: PhD in Civil Engineering
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<p>The study has five major contributions in the field of civil engineering: First, it provides a solid baseline on using of modern technology in infrastructure constructions. Second, it provides sound knowledge on project risk management. Third, it imparts knowledge on reducing project construction cost. Fourth, it ensures timely hand over of the construction projects. Lastly, it contributes knowledge in taking over the people-oriented project.</p>

Name	: Saquib Musavi Hassan
Fellowship session/year	: 2019-2020 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Oxford, UK
Name of the degree	: PhD in Physics
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Advancing scientific and technical knowledge in Bangladesh. 2. Providing important know-how in developing infrastructure in Bangladesh where scientific background is important. 3. Training a future of generation of students and specialists in scientific and technical information so that they can support the nation in the future.

Name	: Nadia Saffoon
Present working institution & designation	: Lecturer, North South University, Bangladesh
Fellowship session/year	: 2019-20 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Oxford, UK
Name of the degree	: PhD in Organic Chemistry
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ Capable of supervising different group of students or conduct research in different area like biochemistry, epigenetics, cell biology, bacterial transformation and protein preparation, crystallography, metabolomics, proteomics at the scientific research lab. ◆ Imply my latest knowledge of "Drug Development Science" in developing new drug and patent for novel drug development.

Name	: Ayesha Siddiqua
BCS Cadre & Batch	: BCS (Livestock) (30 th Batch)
Present working institution & designation	: Upazila Livestock Officer, Department of Livestock Services, Bangladesh, Dhaka
Fellowship session/year	: 2021-22 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Melbourne, Australia
Name of the degree	: PhD in Veterinary Science
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Epidemiological Investigation of Animal diseases will help to identify risk factors, to develop a disease map, and will help to prevent zoonotic diseases. 2. The study will assist in quantifying the socio, economic and environmental burden of diseases and guide for resource allocation in action. 3. Safe and secure animal protein by enhancing production and value addition. 4. One health approach to provide insights into public health interventions.

Name	: Farhana Ahmed
BCS Cadre & Batch	: BCS (Fisheries), 25 th Batch
Present working institution & designation	: District Fisheries Officer (Reserve), Department of Fisheries
Fellowship session/year	: 2021-2022 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: Katholieke Universiteit Leuven, Belgium
Name of the degree	: PhD in Bioscience Engineering
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	The gained knowledge from my PhD study will develop me as an expert and knowledgeable fisheries professional. My knowledge can be directly applied to the aquaculture sector for sustainable fish disease management and enhancement of fish production.

Name	: Faysal Mehedi Hasan
BCS Cadre & Batch	: BCS Livestock & 30 th Batch
Present working institution & designation	: Upazila Livestock Officer, Planning Section, Department of Livestock Services
Fellowship session/year	: 2021-22 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: The University of Sydney, Australia
Name of the degree	: PhD in Animal Science
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ To transfer advanced Australian livestock production-related technologies to Bangladesh and develop inter-relationship. ◆ To encourage colleagues about higher studies in foreign countries ◆ To replicate livestock production and welfare model in Bangladesh to increase productivity and ensure animal welfare. ◆ To develop yourself by creating a global network

Name	: Md Alam Hossain
BCS Cadre & Batch	: BCS (Administration), Batch 27 th
Present working institution & designation	: OSD (Deputy Secretary), Ministry of Public Administration
Fellowship session/year	: 2021-22 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Bristol, UK
Name of the degree	: PhD in Social Policy
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<p>My PhD research focuses on comparing the role of Palli Sanchay Bank with microcredit programmes of the NGO-MFIs in reducing poverty in rural Bangladesh. The knowledge acquired from this study will help me discharging my duties more efficiently in future in following ways:</p> <ul style="list-style-type: none"> ◆ Poverty is one of the foremost development challenges for Bangladesh. The main issue of this study is poverty alleviation. The knowledge acquired from this study will strengthen my capacity as a civil servant to contribute in achieving the poverty alleviation goal of Bangladesh.

Name	: Golam Morshed
BCS Cadre & Batch	: BCS (Administration); BCS Batch- 31 st
Present working institution & designation	: Ministry of Public Administration, Senior Assistant Secretary (OSD)
Fellowship session/year	: 2021-2022 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Glasgow, Scotland, UK
Name of the degree	: PhD in Environmental Sustainability
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Understanding climate change aspects of government policies and their implementation strategies at the local levels from a system perspective. 2. Applying methodological tools in training academies to equip government officials with the latest scientific knowledge of climate change adaptation. 3. Assisting the government in updating national adaptation strategies in line with the global climate change governance.

Name	: Kazi Atiah Taiyebi
BCS Cadre & Batch	: BCS (Fisheries), 29 th Batch
Present working institution & designation	: Assistant Director (Reserve), Department of Fisheries (DoF), Matshya Bhaban
Fellowship session/year	: 2021-22 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Glasgow, Scotland, United Kingdom
Name of the degree	: PhD Environmental Sustainability
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	My study is on the Social-Ecological System (SES) of shrimp farming. By studying the SES of shrimp farming it will be helpful to understand the social and ecological variables and their interactions which can drive the dynamics of shrimp farming SES in the coastal areas of Bangladesh

Name	: Saifur Rahman
Present working institution & designation	: Assistant Professor, Department of Microbiology and Hygiene, BAU
Fellowship session/year	: 2021-22 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Oxford, UK
Name of the degree	: PhD in Biology
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: This Ph.D., undertaken at the University of Oxford, UK, will positively impact my personal, academic, and professional abilities by empowering me with unrivaled research excellence from a world-class university and will facilitate long-term Oxford-Bangladesh collaborations.

Name	: Amrita Pondit
Present working institution & designation	: Assistant Professor, Department of Microbiology and Hygiene, BAU
Fellowship session/year	: 2021-2022, 1 st phase
Name of the course under PM fellowship	: PhD
Name of the University	: University of Oxford, UK
Name of the degree	: PhD in Biology (Zoology)
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: As my research is on One Health approach of Antimicrobial Resistance(AMR) in the perspective of Bangladesh, which has included farm, environmental and human clinical samples as well as the epidemiological data(sanitary status, socioeconomic condition, antimicrobial use etc), it will help to understand the situation of AMR in health sector as well as in veterinary sector in Bangladesh.

Name	: Riyad Hossen
Present working institution & designation	: Assistant Professor, Department of Botany, University of Barishal.
Fellowship session/year	: 2021-22 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Melbourne, Australia
Name of the degree	: PhD in Science
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: <ol style="list-style-type: none"> 1. Study the climate change effects on growth and development of seaweeds 2. Exploring the gene expression of seaweeds under changing climate 3. Utilization of seaweeds for food industries 4. Selection of economically profitable seaweed species 5. Study the origin and evolution of seaweeds

Name	: Md Abir Hasan
Fellowship session/year	: 2021-22 (1 st phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Oxford, UK
Name of the degree	: PhD in International Development
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: <ol style="list-style-type: none"> 1. My organization YPF aims to empower youth in policy making and promote evidence-based policymaking for a Bangladesh better served. The knowledge I am acquiring in the current DPhil is helping me in many ways. 2. Through YPF, I have launched a Coalition for Upgrading Bangladesh Economy with academics, civil servants, politicians, and the private sector in Bangladesh.

Name	: Md. Shaheenur Rahman
BCS Cadre & Batch	: BCS (Livestock), 30 th Batch
Present working institution & designation	: Upazilla Livestock Officer, Jhenaidah Govt. Veterinary College
Fellowship session/year	: 2021-2022 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: The University of Sydney, Australia
Name of the degree	: PhD in Animal Science
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Extension of technology-based farm management 2. Introduce Precision technology to enhance livestock productivity 3. Establishing climate-resilient farming approaches. 4. Pragmatic planning to achieve the goals listed in SDGs' vision 2041 from livestock sector. 5. Introducing export-oriented livestock production strategy.

Name	: Md Ataul Goni Rabbani
Present working institution & designation	: Senior Scientific Officer, Bangladesh Livestock Research Institute (BLRI), Dhaka
Fellowship session/year	: 2021-22 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: The University of Edinburgh, United Kingdom
Name of the degree	: PhD in Genetics and Genomics
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ As I am doing a job in a national research organization and working on the same subject matter (Native chicken), I believe I can apply 100% of my knowledge in my future career. ◆ I will be done genome sequencing of native chicken in Bangladesh which is also first of its kind in the country, so this will help to increase productivity of the native chicken as well as to develop new varieties using our own resources.

Name	: Md Mustiafiz Al Mamun
Present working institution & designation	: Associate Professor, Department of Architecture, (CUET)
Fellowship session/year	: 2021-22 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: Delft University of Technology, Netherlands
Name of the degree	: PhD in Landscape Architecture
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: By focusing on water-based morphological patterns and design, urban and peri-urban land use plans and designs can be made more resilient to minimize the adverse impacts of climate change, natural disasters, and local vulnerability.

Name	: Md. Zillur Rahman
Present working institution & designation	: Associate Professor, Dept. of Agronomy & Haor Agriculture, SAU
Fellowship session/year	: 2021-2022 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Sydney, Australia
Name of the degree	: PhD in Environmental Science
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: <ol style="list-style-type: none"> 1. Exploring the abiotic stress tolerance mechanisms in diverse plant species, 2. Introducing climate-smart farming practices for ensuring maximum crop productivity from minimum inputs 3. Introducing and adopting specific strategies to ensure climate change mitigation, adaptation, and impact reduction related to the SDG. 4. Providing educational, meaningful and inspiring knowledge among the students.

Name	: Sudip Debnath
Present working institution & designation	: Assistant Professor, Khulna University
Fellowship session/year	: 2021-22 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: Wageningen University & Research, Netherlands
Name of the degree	: PhD in Aquaculture
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none"> ◆ My PhD research focuses on developing novel shrimp feed that can help shrimp to mitigate the negative impacts of climate change. Therefore, developed shrimp feed from my PhD research will play a significant role in the shrimp industry of Bangladesh. ◆ PhD research will increase my fundamental knowledge and research skills that will help in my education and research career.

Name	: Tabassum Rahman Sunfi
Present working institution & designation	: Lecture (on study leave), BRAC University,
Fellowship session/year	: 2021-22 (2 nd phase)
Name of the course under PM fellowship	: PhD
Name of the University	: University of Manchester, UK
Name of the degree	: PhD in Cell Biology
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. Gathering experience to do research in world class University 2. As a teacher, knowledge gained in the field of (Biology) cell and molecular biology will be applied in my country in my working institution 3. Inspiring my student to link biological science knowledge in medical sector so that these findings can become available to common people and their better health

Name	: Abahan Majumdar
BCS Cadre & Batch	: BCS (Agriculture), 27 th Batch
Present working institution & designation	: Additional Deputy Director, Department of Agricultural Extension
Fellowship session/year	: 2022-2023
Name of the course under PM fellowship	: PhD
Name of the University	: The University of Edinburgh, Scotland, UK
Name of the degree	: PhD in Agriculture and Food Security
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. The research findings and acquired knowledge will aid in evaluating the impact of climate change on soil carbon and nitrogen dynamics and the overall biogeochemical process in rice-based wetland agroecosystems in Bangladesh. 2. Using the simulation model, will gain insights into present and future rice production scenarios in wetland areas as a consequence of soil biogeochemical changes caused by climate change.

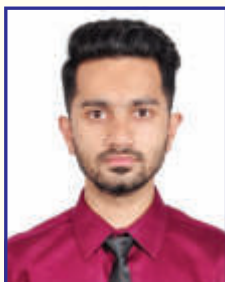

Name	: Ireen Asad
BCS Cadre & Batch	: BCS (Fisheries), 34 th Batch
Present working institution & designation	: Graduate Teaching Assistants (GTA), University of Glasgow, UK
Fellowship session/year	: 2022-23
Name of the course under PM fellowship	: PhD
Name of the University	: University of Glasgow, Scotland, UK
Name of the degree	: PhD in Ecology (Research)
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ol style="list-style-type: none"> 1. I believe, after my ongoing PhD research I will be able to utilize my knowledge and expertise in a larger scale of microplastic pollution in the World Heritage Site Sundarbans Mangrove Forest and also the consequential effects of microplastics presence leads to ecological damage in mangrove ecosystem. 2. I am confident that the findings I will achieve from this research will help me to disseminate the result to the regulatory authorities and it will contribute to the development of fisheries sector of Bangladesh.

Name	: Asif Imtiaz
Present working institution & designation	: Asst. Prof., Dept. of Management Information Systems, University of Dhaka
Fellowship session/year	: 2022
Name of the course under PM fellowship	: PhD
Name of the University	: London School of Economics and Political Science, UK
Name of the degree	: PhD in Health Policy and Health Economics
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	I will devote myself to the research of healthcare where my aims will be: <ul style="list-style-type: none">◆ To formulate policies on transferring informal healthcare seekers to formal healthcare seeking.◆ To identify the difference in the quality of care between formal and informal providers using the gold standard methodology to devise plans according to the findings.

Name	: Salima Sultana Shimo
Present working institution & designation	: Assistant Professor, Bangladesh University of Textiles
Fellowship session/year	: 2022-2023
Name of the course under PM fellowship	: PhD
Name of the University	: The University of Manchester, UK
Name of the degree	: PhD in Fashion Management and Marketing
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	<ul style="list-style-type: none">◆ To investigate how circular economy strategies supporting the transition to a more sustainable fashion industry through the analysis of the opportunities and barriers of recycling technology.◆ Investigate challenges to faster scaling of textile waste feedstocks and the processing of this waste into new fibres and how to reuse this recycled fibre to make it more profitable.

Name	: Shoumik Saha
Fellowship session/year	: 2022-23
Name of the course under PM fellowship	: PhD
Name of the University	: University of Maryland, College Park, USA
Name of the degree	: PhD in Computer Science

Name	: Swajan Paul
Present working institution & designation	: Research Trainee, McGill University, Montreal, Quebec, Canada
Fellowship session/year	: 2022-23
Name of the course under PM fellowship	: PhD
Name of the University	: McGill University, Montreal, Quebec, Canada
Name of the degree	: PhD in Surgery
How the acquired knowledge will contribute/ is contributing in discharging the assigned responsibilities at the workplace	: The ultimate aim of the PhD program is to develop and test the first-ever dynamic Surgical Guidance System (SGS) to prevent unnatural surgical death in the operation theatre (OT). It will directly contribute to the domain of surgery in the following ways: 1. It will give direct interactive guidance to the surgeon during surgical procedures. 2. It will increase the efficiency of surgeons in the operation theatre.

Evaluation of the Prime Minister Fellowship Award

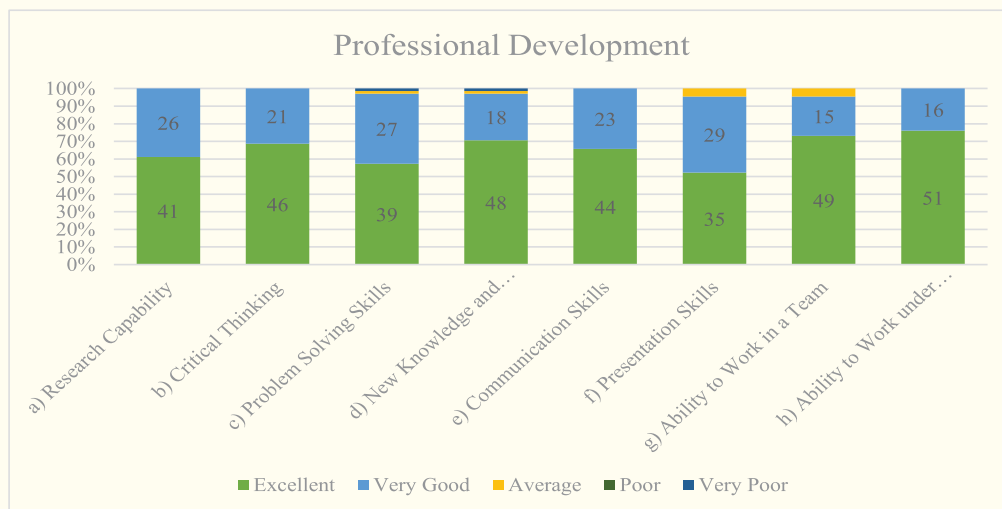

1. Introduction

As part of the overall human resource development initiative of the government, the Honourable Prime Minister Sheikh Hasina introduced the Prime Minister Fellowship program in 2018 with a view to improving the knowledge and capacity of the civil service, academia, and the qualified citizen of Bangladesh and has given the responsibility to the Governance Innovation Unit (GIU) to administer and manage the fellowship. Under this fellowship program, the selected fellows are sent to different reputed foreign universities abroad including the USA, UK, Australia and Canada. Since the commencement of the program, about 239 Masters fellows and 98 PhD fellows have been sent to abroad to pursue their higher studies. A significant number of them have already returned to the country upon successful completion of their courses and have been employed in various sectors to serve the nation. To assess the impact of the program, no rigorous evaluation of the program has yet been conducted. But a short evaluation has been carried out with the fellows who have already returned to Bangladesh till 2022. The questionnaire was distributed to the master degree fellows who returned to Bangladesh after completing their program. As many as 66 fellows responded and the report is based on the evaluation of 66 fellows.

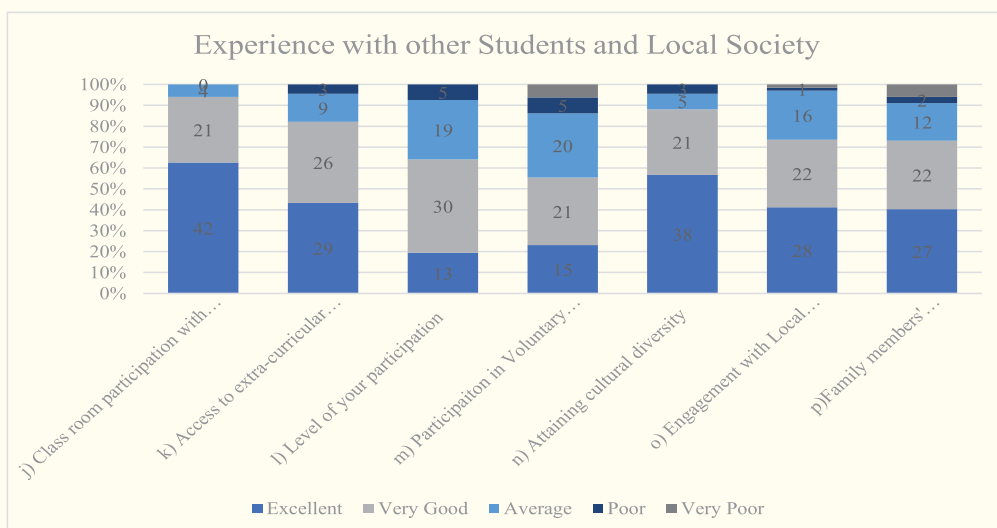

The evaluation study was done to assess the perception of the fellows about their professional development and their social experiences abroad. The fellows were surveyed with a set of questionnaires and provided their answers in a five-point Likert scale. Then the answers were analyzed and presented graphically. The theoretical basis of the evaluation was based on the four-level Kirkpatrick Model. It assesses any training and educational programs against four level of criteria i) Reaction, ii) Learning, iii) Behavior and iv) Results. Learning and Reaction levels were basically evaluated based on the perception of the participants through interviews and Behavior, while Results levels were evaluated based on the behavioral change analysis and performance evaluation of individual participants.

The findings of the study were encouraging. In relation to personal and professional development, as well as social experience with other students and the local communities all fellows have shown their positive achievement in all respects. The aggregated key findings are shown below:

Personal and professional development

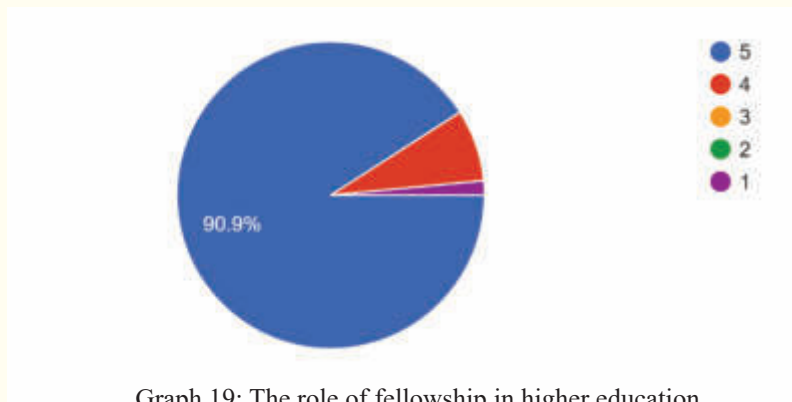

Social Experience with other students and the local communities

2. The role of fellowship in higher education

The scholarship proved to be instrumental in empowering and facilitating the recipients in their pursuit of higher education. According to the study, it was observed that an overwhelming majority, approximately 90.9 percent, of the respondents recognized and appreciated the scholarship and also contribution to their educational endeavors. This recognition underscores the profound influence that the scholarship had on their ability to achieve higher education and unlock future opportunities.

Graph 19: The role of fellowship in higher education

3. Conclusions

The GIU designed an assessment questionnaire with both closed and open questions to understand how fellows responded to the fellowship program and how they perceive the role of fellowship in capacity building. Although the effectiveness of the fellowship program can only be evaluated in a sustained way after a few years, the perceptions of fellows are an important parameter for assessing their feeling about the program. This assessment also provides a pathway for further in-depth assessment of the program. The findings suggest that the Prime Minister Fellowship Programme was extremely well received by the participants, contributing to the improvement of their knowledge and skills and the exchange of experiences on the subject.

The fellowship programme was, in general, extremely well-valued by all participants, which manifested in the evaluation questionnaires. They particularly highlighted the initiative and the improvement of their knowledge and skills such as critical thinking, research capability, problem-solving, and communication skills.

PM fellowship is considered as the most prestigious fellowship program in Bangladesh. It plays a significant role in fostering skilled public administrators and academicians. This fellowship program focuses on aligning with the development agenda of Bangladesh as well as fostering good governance and public services. The initial assessment shows valuable insights for further improvement. The findings highlighted the program's positive aspects, such as adequate funding, efficient financial management, and a transparent selection process. This is the first endeavour of the evaluation process in which only the immediate reaction is reflected. The analysis also could not take the response of all fellows. The process is a continuous one and will add all fellows in the next step of evaluation. In the next stage, along with the reaction level which includes all master degree fellows, the learning will be evaluated according to the theoretical underpinning.
